公司简介

Introduction

苏州领科工业技术有限公司主要致力于向工厂自动化提供专业的模块化组装系统和自动化输送系统，产品广泛应用于机械、汽车零部件、电子、食品、医药、包装等行业。

主要产品：UTS托盘输送系统、皮带输送机、滚筒输送机、链条输送机、柔性链板输送系统、及其配套模组；工业铝型材；标准设备框架；

LinkedGo is mainly committed to providing professional modular assembly system and automatic conveying system for factory automation. Its products are widely used in machinery, auto parts, electronics, food, medicine, packaging and other industries.

Main products: tray conveying system, belt conveyor, roller conveyor, chain conveyor, flexible chain plate conveying system, and its supporting modules; industrial aluminum profiles; standard station frame;

02 Assembly Technology

Trac Components

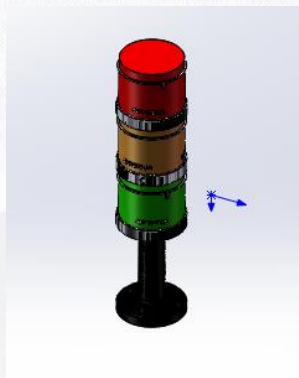

Trac fast assembly components allow you to build your precision module in a fast way.

The FAS has all you need to finish your idea, you can just start from a easy way, the system will be very easy to adjust and keep alignment.

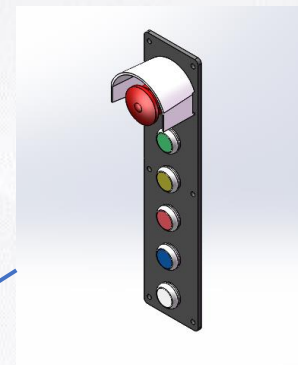

Precision

03 Standard Station Frame

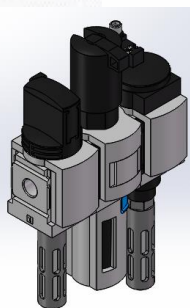

Alarm Traffic Light

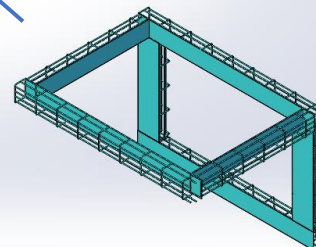

Integrated Buttons

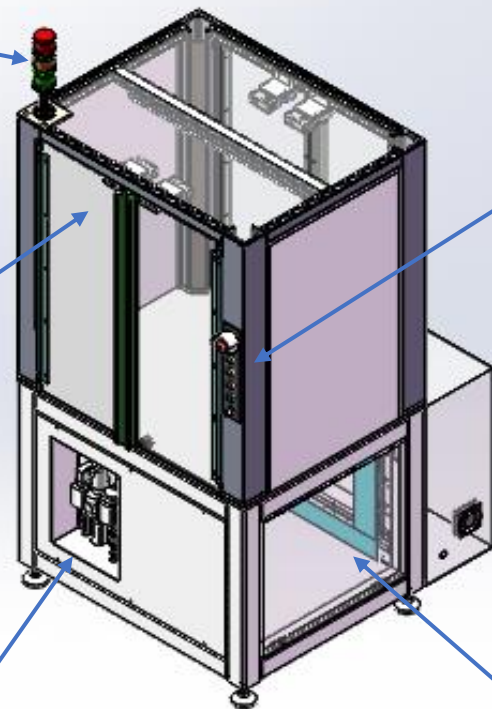

Door Safety Lock

Standard Air Terminal

Integrated Backbone

Electrical Cabinet

Station Frame

Standard station frame will reduce lots of work time from designers, it integrates all the base components you need for automatic stations.

Based on standard frames, you can build up your own station in an efficiency way and keep the same style.
